CHAPTER XII

Location of Armenia Major (Third map of Asia)

ARMENIA is terminated on the north by a part of Colchis, by Iberia, and Albania on the line which we have indicated as running along the Cyrus river; on the west by Cappadocia along the accessible part of the Euphrates and the part of Pontus Cappadocia which extends as far as the Colchis border after passing through the Mosechius mountains; on the east by a part of the Hyrcanium sea from the mouth of the Cyrus river to the terminus the location of which is in

79 45 43 20

and by Media on the line leading to the Caspius mountains and along these mountains, the termini of which are located

in 79 42 30

and

80 30 40

on the south it is terminated by Mesopotamia along the line of the Taurus mountains which begins at the Euphrates river, the location of which is

71 30 38

and extends to the Tigris river

in

75 30 38 30

then by Assyria on a line extending along the Niphates mountains, that line which we have said continues in a direct line as far as the indicated terminus of the Caspius mountains.

The noted mountains of Armenia are the Moschici extending along that part of Pontus Cappadocia, which is above them, and the Paryardes mountains, the terminal positions of which are
